SG1A

1. (S/STD) MISSION: Provide information on narcotics-smuggling operation involving a series of callsigns.
2. (S/STD) VIEWER TASKING: Encrypted coordinates plus listed callsign [REDACTED] (See attached tasking sheet)
3. (S/STD) COMMENTS: No Physical Inclemencies.
4. (S/STD) EVALUATION: Since no "ground truth" operational data is known for comparison, no objective evaluation can be made of viewer 018's results. WORKING PAPER

Project: 9007-II
Date: 900321
Time: 0902-0933
Viewer: 018
Session: 02

SUMMARY OF INFORMATION:

1. (S/STD) Provide the true name of the person associated with the call

SG1A sign [REDACTED] Again, this question has no exact meaning, and therefore does not produce an exact answer. There was an impression that a "main person" involved had the name (phonetics only: "Enrique", "Ricky", "Reeky", "Rique", "Un Rique").

2. (S/STD) Describe the vessel associated with the call sign

SG1A [REDACTED] The vessel is very large. The front of the ship appears to have a light blue band around the top with blue-green under it. The rear of the ship (see Fig. 1) appears to have a pile of loosely stacked black "things" on deck immediately in front of some very sturdy uprights.

3. (S/STD) Determine the current location of the vessel: (Time: 0920 hrs local, 21 MAR 90) Repeated attempts to locate the vessel produced no results. The ship, however, is "at sea" and underway.

4. (S/STD) Determine the destination(s) of the illegal drugs: Two impressions of destinations (both of which were in open water) were:

- a. Approx 100 miles north of Atol Das Rocas (Brazil), in the Atlantic
- b. Approx 100 miles west of Islas Revillagigedo (Mexico), in the Pacific.

5. (S/STD) Determine the nature of the illegal drugs: The drugs located consist of a slab or very large, thin package of a cream-colored, pliable solid which has black streaks or marks on its surface. This "slab" of drugs is held to the wall by a yellowish rubber/plastic "cover" which buttons to the wall with large metal snaps. This is located next to a window, or some very bright, glaring, vertical light source.
